CLASSIC CASELIST

- Full arch impressions
- Opposing impressions (Polyvinyl is recommended) and/or opposing models
- Pre-Op Models
- Temp model or return wax-up for guide
- Bite registration
- Photos (Pre-Op, Temps & Facial w/ Symmetry Bite)
- Shade (prep-shade, final shade)
- HIP Reference, Stick Bite or Other Cranial Reference
- ND Stump Shade

Pictures of the facial view should be taken from hairline to chin.

Shade guide should be directly underneath actual tooth or preparation with shade tab depicted within photo for proper reference.

Other vital patient information i.e. shade, shape, measurements and patient concerns should be listed on the lab slip.

DENTISTRY BY Dr. Steven McConnell, Novato, CA
